

Part No **02362**

6 Foot AM-FM Marine Antenna

The 02362 antenna is a marine antenna for use in the bands 526.5 -1606.5kHz and 88 -108 MHz bands.

The antenna is housed in a white, smooth and rugged fiberglass radome, and comes complete with five metres of low loss cable as well as a car antenna style "push in" plug 04741. The antenna can be used with a range of alternative optional mountings.

Applications

Marine AM-FM receive antenna.

Tuning

Factory tuned requires no further adjustment.
