

Marine Deck Mount Antennas

Benelec marine antennas are designed and manufactured to suit the tough marine environment they would be exposed to. These antennas have been designed to provide a consistent look for all bands. Where more than one antenna is used on the same vessel a neat and tidy appearance can be achieved. Heavy-duty fibreglass radomes are finished in White Marine grade two pack coatings and ferrules are chrome-plated brass for durability and attractive appearance.

Construction

Radome	Heavy Duty Tapered White Hollow Fibreglass
Radiating Element	Copper tubes and rods
Base Ferrule	Chrome Plated Brass 1" 14 Tpi Female Thread
Feeder Cable	5 Mtrs White RG58C/U Coaxial Cable
Packaging	Individually in Cardboard Tubes - 6 pcs/carton

Models

Application	Frequency Band	Gain dBi	6' (1.8 m)	8' (2.4 m)	12' (3.6 m)
HF / SSB	2-30 MHz	2.1	-	-	0200124
