### Benelec Marine 2 Way Knuckle Antenna Base

– 1" Thread

An adjustable antenna mount that articulates for horizontal, vertical or inclined mounting surfaces. It is entirely constructed of nylon, lightweight & suited to shipboard and fixed station applications. The male mounting thread is the Marine standard 1" 14tpi.

#### OPERATION

Shipboard and fixed station applications. By lifting the Handle toward the vertical will disengage the V-groves and allows the top antenna mounting section to swivel through 180°. To lock the fitting in the desired position, bring the Handle back down to the Horizontal.

The locking screw in the bottom section can be loosened to allow for adjustment through 180° at right angles to the top section.

Consult the **Marine Antenna Installation Instructions** supplied with your Marine Antenna for the proper procedure to follow in the installation and use of your Marine Antenna.

#### FEATURES

- All Nylon construction
- Accepts all antennas with 1" - 14 tpi female thread 1" long
