2 Years Please refer to [Benelec Terms & Conditions](#))

OPERATION

Shipboard and fixed station applications. By lifting the Handle toward the vertical will disengage the V-grooves and allows the top antenna mounting section to swivel through 180°. To secure the fitting in the desired position, bring the Handle back down to the Horizontal. The locking screw in the bottom section can be loosened to allow for adjustment through 180° at right angles to the top section & retightened.

Consult the Marine Antenna Installation Instructions supplied with your Marine Antenna for the proper procedure to follow in the installation and use of your Marine Antenna.
