

DATASHEET

SKU: 02736

Benelec Marine Cable Entry Port (5mm)

The 02736 is designed to allow antenna wire to feed directly through the base eliminating the need for a separate cable grommet. The base is designed with a recess which, when filled with silicon sealant will make a water tight fitting.

SPECIFICATIONS

Flange diameter	71mm
Standing height	105mm
Mounting holes	3x 7mm diameter holes (53.2mm P.C.D)

All stainless steel construction
Investment Cast 316 Stainless Steel

Requires (3) 1/4" (6.35mm) FH mounting fasteners - not included.
