

DATASHEET

Benelec Marine Rail Mount Antenna Base 1" Thread Stainless Steel

SKU: 027381

A heavy-duty adjustable antenna mount that articulates for horizontal or vertical mounting rails (**22-26mm diameter**). It is constructed entirely of corrosion resistant, non-ferrous materials, ideally suited to shipboard and fixed station applications requiring non-magnetic antennas. This mount is cast stainless steel and mirror polished. It is threaded for all standard 1" x 14tpi antennas and has a hole to allow the wire to pass through the threaded portion.

APPLICATIONS

Shipboard and fixed station applications. By lifting the Handle toward the vertical will disengage the V-groves and allows you to swivel the Antenna to the desired angle. To lock the fitting, bring the Handle back down to the Horizontal.

Consult the **Marine Antenna Installation Instructions** supplied with your Marine Antenna for the proper procedure to follow in the installation and use of your Marine Antenna.

FEATURES

- Stainless steel construction
- Accepts all antennas with 1" - 14 tpi threads
- Stainless steel hardware
- Positive cam lockdown handle
- Rail mount vertically or horizontally
- 9/32" (~7mm) access hole for cable routing
- Supplied already assembled, ready to use

PACKAGING

1 Per Poly Bag
1 x Box = 20 PCs, G.W. 12.3kg, 240x240x250mm

SPECIFICATIONS

Max Length	100 mm
Base Dimensions	47 x 66 mm
Gross Weight	565 g
Construction	Stainless Steel

WARRANTY

1 years (Please refer to [Benelec Terms & Conditions](#))
