

**Part No 027383**  
**Marine Tall Swivel Antenna Base**  
**Stainless Steel 316, 1" mount**

A swivel antenna mount that articulates around one axis for horizontal, vertical or inclined mounting surfaces. It is entirely constructed of Stainless Steel, ideally suited to shipboard and fixed station applications. The male mounting thread is the Marine standard 1" 14tpi.

### Operation

Shipboard and fixed station applications. By using in combination with optional [027384](#) *Stand-off Bracket* and also [027385](#) *Laydown antenna hook*, a large antenna may be installed vertically & then simply laid down for stowage, towing, or under bridge navigation.

Consult the **Marine Antenna Installation Instructions** supplied with your Marine Antenna for the proper procedure to follow in the installation and use of your Marine Antenna.

### Features
