

Part No 02740

Standard UHF Base, 5/16" Antenna Mount

The Benelec 02740 is a conical base designed to mate with 5/16" Ground Plane antennas. It has internal termination of the coax taking out any guesswork with coax preparation & installation. It can handle light-medium size antennas up to 1220mm (4'). The male mounting thread is the standard 5/16" 26tpi.

Suitable Antennas include:

02152, 02153, 02609, 02610, 02612, 02613, 02614, 02615, 02620I, 02620IBK, 02623, 02623I, 02623IBK, 02624I, 02624IBK,

Pre cabled versions available:

10108 RG58 3.6m & UHFplug (moulded)

10108A RG58 3.6m & UHFplug
