BNC Plug for RG58

Coax Preparation 04311

The **04311 BNC plug** is a crimp inner – crimp outer solder style, although it can be used as solder inner, crimp outer. It is a quality Nickel plated product with gold finish on the centre pin contact & also the soldering surface (inside of centre pin). Unlike silver plated connectors it has high resistance to tarnishing.

The construction features Brass metal parts with Nickel- or Gold-plated surfaces as appropriate. It uses Teflon dielectric.

FEATURES

- Brass metal parts
- Gold Plated centre pin, crimp 1.6mm
- Nickel plated (all else)
- Teflon Dielectric
- Reliable, Robust, Durable
- Suitable up to 2GHz
- Solder centre (or Crimp)
- Terminate braid by Crimp, ideally 5.4mm
- Durability \geq 500 cycle

Packaging

- Each: N.W. 14g
- Poly Bag 25x: G.W. 370g
- Box of 100: G.W. 1.5 kg

Warranty

12 months (Please refer to [Benelec Terms & Conditions](#))
