

OPENCOMM Headset

078604A Bone Conduction Stereo Bluetooth Headset

OpenComm is the first AfterShokz Bluetooth headset designed specifically for communications. Engineered with patented 7th generation bone conduction technology and featuring our signature open-ear design (nothing inside or over your ear), OpenComm enables clear communication through the DSP noise-cancelling boom microphone and helps you stay connected to your surroundings while you're on the road, on a jobsite, or at your desk.

-  Multi-Device Pairing
-  Noise - Cancelling Boom Mic & DSP Circuit
-  Open - Ear Comfort
-  16 Hours of Talk Time
-  Quick Charge
-  Ultra Light & Comfortable Long Term
-  One Size Fits All

IP55 Water-Resistant
Repels dust, sweat and moisture for added durability

Bluetooth 5.0 with NFC Pairing
Strong, reliable connectivity up to 10 meters

OPENCOMM Headset

078604A Bone Conduction Stereo Bluetooth Headset

Open-Ear Comfort

OpenComm features a lightweight, flexible frame and bud-free design with nothing inside or over your ears, for unrivaled, all-day comfort. The open-ear design of this compact wireless headset follows the curve of your ear and allows for improved communication and situational awareness in the workplace, regardless of noise level.

Awareness + Connection

Engineered with 7th generation patented bone conduction technology, our top-selling headset delivers professional audio and helps you stay connected while you're on the road, at the jobsite, or at your desk. Designed to leave your ears open and maximize hands-free communication, the OpenComm headset allows you to stay connected with unmatched awareness and outstanding call quality while working in a transportation, business, or industrial setting.

Noise-Canceling Boom Microphone

The adjustable DSP noise-canceling boom microphone eliminates background noise in a variety of workplace settings for clear communication in loud environments when positioned near the mouth. As a result, OpenComm delivers premium sound quality coupled with clear audio transmission to ensure that conversations are at their most collaborative, making it the best headset for work, virtual meetings, conference calls, or commercial use.

16 Hours of Talk Time

Our efficient, high-powered battery comes with up to 16 hours of talk time or 8 hours of listen time on a single charge to offer all-day communication and connection from your desk, worksite, or long commute. OpenComm also utilizes a Quick Charge feature; simply plug your headset into its magnetic induction charger for 5 minutes to get up to 2 hours of talk time.

Easy Controls

Our signature multifunction button is designed for easily accessible controls to play, pause, skip, activate voice assistant, answer calls, and more with just a couple taps of your finger. OpenComm is also engineered for NFC (Near Field Communication) and multipoint pairing; Bluetooth pairing with an NFC compatible device, or connection to two devices at the same time.

What's in the Box
