

DATASHEET

Benelec 3.6m RG58 Antenna UHF Base Lead with UHF Plug

The 10108 Mobile antenna lead is pre-terminated with an Australian type base 5/16" Male Stud Antenna interface. It is designed for mobile vehicle panel mounting and UHF plug is pre-terminated at the cable end.

The lead can be fitted to any mobile antenna mounting that offers a 5/16" female mounting hole.

The UHFp is small enough to allow easy routing of the lead through the vehicle without the need for special tools to terminate the end.

APPLICATION

Direct to Vehicle body panels for Mobile Ground Dependent Antennas with Australian 5/16" female termination.

FEATURES

- Pre-terminated with UHF Base
- Designed for panel mounting
- Small UHFp allow easy routing of the lead through the vehicle
