FEEDER STANDARD GROUNDING KIT SERIES with Watertight Frame Housing

Grounding Kits are essential for protecting high-cost radio stations against over- voltages. Grounding Kits integrate directly into transmission system from the antenna down to the base station – safeguard the system and provide reliable grounding in lightning strokes. JSKK Grounding Kits are designed with premium material solid copper construction, the kits can eliminate corrosion caused by moisture and have long life expectancy. JSKK Grounding Kits provide a quick, easy and reliable installation.

CONSTRUCTION

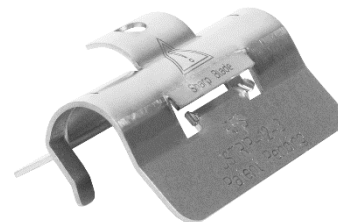

Product Number	Clamp Size	Grounding Cable		
		Size	Material	Length
232011205	1/2"	16 mm ²	T2	0.6 m
232011207	7/8"			
232011208	1 1/4"			
232011212	1 5/8"			

SPECIFICATIONS

Operation Temperature	- 40 ~ 85 °C
Waterproof Protection	IP68
Contact Resistance	≤ 10 M Ω
Insulation Resistance	>50 0M Ω
Compliance	RoHS 2.0
Tooling	Inner Hexagon Spanner, Knife

RECOMMENDED JACKET STRIP TOOLS

851520533	Spinner Jacket Stripping tool 1/2" BNA73233
851520734	Spinner Jacket Stripping tool 7/8" BNA73234
851520935	Spinner Jacket Stripping tool 1 1/4" BNA73235
851520936	Spinner Jacket Stripping tool 1 5/8" BNA73236
