

Heavy Duty Fold-Down Bull Bar Mount

Adjustable at 0°, 30°, 60° and 90° | Stainless Steel

The 027323 is a stainless-steel bracket designed for durability and providing a reliable solution for antenna mounting applications on vehicle’s bull bars. It features a unique adjustment mechanism that allows you to easily set the product at four distinct angles to suit your specific needs.

With a robust and compact design, it ensures reliable operation and a long lifespan, even in demanding environments. The product offers two secure mounting options for installation on the bull bar, ensuring compatibility with a wide variety of vehicle setups.

FEATURES

- Direct mounting to bull bar members
- Compatible with welded bull bar mounting tabs
- Folds into four fixed, positive-lock positions
- Ultra heavy-duty stainless-steel construction
- Suitable for all common antenna types
